Although the drought during the summer seemingly would necessarily make a short corn crop and a less amount of fruit, the people of this locality have been agreeably surprised, for corn is fine. The orchard yield is immense, bushels of apples went to waste on the ground. Potatoes were a success and after all the conjectures of those inclined to prophesy a famine, God has shown that He never forgets His people in Saline.

Mrs. A. E. Riley is prepared to do all crochett work as usual. Polo Caps, childrens hoods, etc., ladies new style hand bags and scarfs.

Women's Fall Suits and Coats, Original in Design, Individual in Style.

Never Were Such Desirable Garments Offered For Such Attractive Prices at the Start of a New Season—As Far As We Know Of. . . .

The reason is simply because we gave our orders to the manufacturers very early in the season, and bought in heavy quantities. This naturally lessened the cost, thereby enabling us to price each garment at much less than its value.

Primarily every suit and coat is individual, exclusive. The tailoring is above the ordinary. All the fashion details are brought out in a most pleasing manner.

The materials are many and varied yet only those that have proven their wearability are represented. The styles are so extensive as to give each one satisfying choice.

The woman who needs a New Fall Suit or Coat will undoubtedly appreciate the splendid values offered. No matter how exacting her tastes she can satisfy it somewhere in the assortment, and be gratified at the price.

You may wish to buy a new set of Furs or a Muff or a Scarf. Furs are more beautiful than ever and we have such a variety to select from that you can not but be pleased with what you will see here. You will see some swell pony coats too.

Our opening of the Fall Season was a success all along the line. Never were shown such nice things for the neck. Our Jabots, Side Frills and Fichus are dreams. You may want a stylish Skirt to wear with your long coat, you will find just what you desire in the large stock we are showing.

Fine Western Trip

Mr. and Mrs. J. S. Kelley returned home Saturday evening after a delightful summer spent in traveling over the West. Those who were unfortunate enough to have to stay home can still have the benefits of the trip by a call at the store. First they will show you a wonderful collection of western products—potatoes weighing as high as 4 lbs. and 2 ozs., cabbages and turnips too big to weigh or measure accurately, apples so big that they can be bought at wholesale only (unless sliced), and many other really wonderful things.

Then they will tell about the most wonderful place visited—Glacier Park, in the new National Park which is 35 miles square, has 19 lakes and 20 glaciers, at ruy remarkable exhibition of nature's grandeur.

Mr. Kelley says he spent much of his time fishing at Big Fork with good success, but we would not believe that part because we neither saw or tasted the fish.

They also visited Seattle, Flathead Lake, at Summers, Mont., the Catskill Mountains and other points of interest. Mrs. Kelley looks, and says she feels, ten years younger.

Pleasant Surprise

A limited number of friends were entertained by Owen C.
